

Timetable of lectures <i>et al</i>		Autumn 2019								
	Monday		Tuesday	Wednesday		Thursday	Friday		Irregular timing	
9:00		Solid state physics (occasional overflow) Sala A	<i>English intermediate B2 level Sala B</i>							
9:30										
10:00	Solid state physics I Sala A		<i>Polish basic A1 level Sala A</i>		Quantum information theory I Sala A		<i>English intermediate B2 level Sala C</i>	<i>Solid state physics seminar [UW, 10:15, Sala 006]</i>		
10:30										
11:00					Seminar on fundamental physics Sala D		Carbon in condensed matter Sala D			
11:30										
12:00	Journal club Sala D		<i>Polish intermediate A2 level Sala A</i>	Molecular biophysics II Sala B		<i>English advanced C1 level Sala C</i>	Foundations: special relativity Sala B			
12:30										
13:00	<i>lunch</i>						Selected topics of theoretical physics I Sala A			
13:30	<i>break</i>									
14:00			<i>Polish advanced B1 level Sala A</i>							
14:30	Introduction to contemporary physics Sala A									
15:00										
15:30										
16:00	Material science & computational methods I Sala D (Sala A)								Theory of molecular-level simulations in materials science, fluid dynamics, and biology Sala D (Sala A)	
> 16:00										

Green: a popular lecture at the Physics Department, University of Warsaw, UI. Pasteura - not organised by our School
